

School Camps in the Southern Grampians, Victoria

The Grampians Retreat consists of 31 hectares bordered by the Wannon River and includes natural bush land, red river gums, other varieties of gum trees, heath land, river flats and native grasses. It is a unique site at the base of the Mt Abrupt sandstone formation to the north and the very edge of a lava flow to the south which altered the directional flow of the Wannon River.

We are experts at hosting school camps, and are a fully accredited campsite with the Australian Camps Association. Our facilities are clean and well-equipped, and the activities we offer school students are challenging and rewarding. We offer –

Clean, quality accommodation

Catering to individual needs

Facilities for people with disabilities
